EDUCATION

Ph.D. in Geospatial Analytics

August 2019 - Current

North Carolina State University

Dissertation topic: Large-scale on-farm reservoirs monitoring using remote sensing techniques

Master of Science in Agronomy

May 2017 - May 2019

Kansas State University

Thesis: Ammonia volatilization from urea broadcast on winter wheat

Undergraduate Exchange

August 2015 - August 2016

Wageningen University and Research Centrum, The Netherlands

Tuition and fees fully sponsored by WUR and University of Sao Paulo partnership

Bachelor of Science in Agronomy

February 2012 - December 2016

University of Sao Paulo, Brazil

Thesis: Potential of sugarcane irrigation on northwestern Sao Paulo, Brazil.

RESEARCH EXPERIENCE

Ph.D. in Geospatial Analytics

North Carolina State University, Raleigh NC

August 2019 - Current

Graduate Research Assistant

- Experience with multiple satellite imagery including pre-processing and processing Landsat-8, Sentinel 1 and 2, and MODIS.
- Processing, downloading, and analyzing high-resolution Planet CubeSats and RapidEye imagery using Planet's Python Client API.
- Experience with surface water time-series analysis using Landsat Analysis Ready Data, Dynamic Surface Water Extent (USGS), and the Global Surface Water Extent.
- Time-series analysis of earth surface change using Google Earth Engine and machine learning algorithms.
- Course work focused on Remote sensing, Data Mining, Spatial Modeling, Geo-visualization and Geo-database management.

MSc Thesis

Kansas State University, Manhattan KS

May 2017 - May 2019

Graduate Research Assistant

- Coordinated the planning and execution of 11 field experiments. Activities ranged from planting to harvest winter wheat and deployment of meteorological stations.

- Responsible for creating a Python based function to manipulate, clean and analyze field experimental data.
- Comprehension of the Integrated Horizontal Flux (IHF) micrometeorological method combined with a passive sampler to measure gas fluxes.
- Course work focused on Agricultural meteorology, Remote Sensing and GIS, Statistics and Programming (Python).

PROFESSIONAL MEETINGS

Perin, V., Tulbure, M.G., Gaines, M.D., Reba, M.L., Yaeger, M.A., 2021. On-farm reservoir monitoring using Landsat inundation datasets. *AGU Fall meeting 2020*. Poster.

Perin, V., Santos, E.A., Lollato, R., and Ruiz-Diaz, D. 2018. Ammonia volatilization from urea broadcast on winter wheat. In: *33rd Conference on Agricultural and Forest Meteorology*. May 2018. Boise, ID. Poster.

RELEVANT SKILLS

Software: QGIS, ArcGIS, ENVI, Git

Programming languages: Python, R, JavaScript, SQL, and MATLAB

Languages: fluent English and native Portuguese

Cloud computing: Google Earth Engine

ACHIEVEMENTS AND AWARDS

-Outstanding Student Presentation Award. Poster Presentation. On-farm reservoir monitoring using Landsat inundation datasets. AGU Fall meeting 2021.

-Earth Surface Processes Institute (ESPI), Summer School. 6-day immersive online python programming training. 2020.

-Mindvalley University - The Habit of Ferocity by Steven Kotler. Full quest granted via Scholarship Program. 2020.

-Poster Presentation Winner. College of Natural Resources at North Carolina State University. 2020.

-Scholarship Agronomy Department for distinguished graduate students. Kansas State University 2018.

-Travel Award scholarship. Kansas State University. 2018.

-Finalist Three Minutes Presentations. Kansas State University. 2018.

-Scholarship Agronomy Department for distinguished graduate students. Kansas State University. 2017.
